"The craftsmen at Ironwood do brilliant work," says Holl.

A Reinvention of the Chair

Wells Mason's 10-year-old venture, **Ironwood Industries**, continues to handcraft innovative items. The Celeste chair, available in dyed maple (above) as well as natural finishes, is built with hand-chopped mortise-and-tenon joinery. It is Mason's interpretation of a chair seen at Palladio's Villa Foscari at Malcontenta near Venice. His clean, careful design has made him a favorite of architect **Steven Holl**. □
